If Face Masks Dont Work Then How Can You Protect Agains Infection from Airborne Swine Flu?

Cleanaer has been proven to reduce microbes in the air and reduce risk of infection. Cleanaer is the only air purifier on the market that can protect you from a sneeze anywhere in a room immediately.

LiquidIons delivered from Cleanaer have been shown to be able to remove airborne contaminants, including bacteria, and to suppress new introductions of potentially harmful organisms.

By treating the air in a clean chamber before releasing bacteria, LiquidIons suppressed 70% of the bacterial challenge aerosolized into the room. | [Read More](#)
