

# Allergy UK

Independent tests show that Cleanaer is effective in a room of up to 56m<sup>3</sup>. Cleanaer has also been endorsed by Allergy UK in its standard room size test for products up to 17m<sup>2</sup>.

## Cleanaer & the Allergy UK Seal of Approval

Cleanaer is endorsed by Allergy UK and has been awarded it's prestigious seal of approval for the reduction of house dust mite and cat allergen. (Cleanaer has also been independently tested for the reduction of other particles including smoke, pollen, & bacteria.)

## Allergy UK Endorsement

The allergy UK seal of approval award Seal is given to products that specifically restrict/reduce/remove allergens from the environment of allergy sufferers and also for products which have significantly reduced allergen content.

Cleanaer is endorsed by Allergy UK for the removal of house dust mite and cat allergen. Cleanaer has been proven to help remove these allergens from the breathable air by over 70% and 75% respectively. Once removed, they do not return.

## Other independent tests

Other independent tests have shown Cleanaer to be a highly effective solution for reducing dust, smoke, pollen, heavy duty odours, (ANSI/AHAM AC-1-2006 dust, AHAM/ANSI AC-1-2006 pollen, Consumer perception panel trial FIRMENICH INTERNATIONAL FINE FRAGRANCE CENTER odours).
